Many families today are struggling with the devastating effects of substance abuse, sexual addiction, and family relation issues in the forms of divorce, child neglect, crime, and financial hardships.

The Broken Families: Strength-Based Solutions Conference will focus not on traditional treatment for individuals struggling with relationships—help that is often too little and too late—but, rather, on research-driven, strength-based strategies that are helping individuals make their relationships work.

Over the course of the conference, national, state, and local experts will highlight the benefits of strong and healthy relationships and marriages for both adults and children, and provide conference attendees with new tools for addressing these issues proactively within their professions.

Conference attendees choose from two tracks:
Family Wellness: Family Relationships from Cradle to Grave or **Relationships That Overcome Sexual Addictions/Managing Relationships While Managing Substance Abuse and Mental Health Issues.**

CEUs from NNU are available to conference participants. Those attending Track #1, Family Wellness: Family Relationships from Cradle to Grave, can receive CEUs in addition to certification from the Family Wellness Institute.
